

Magdalen Hut to Boyle Village – 2 hours - Medium

Follow down the Boyle River Flats, being careful to stay within the Marginal Strip (20 m either side of the water course), so as you don't stray onto Glenhope Station land. About 1 hr down there is a track up onto the tramping track on the true right of the Boyle where the river sweeps in near to the bush on the right. Follow the tramping track until you have crossed a rocky side stream coming from the right with a lot of Tutu growing on the banks. After this stream, look for a marker which will show you where to drop down and cross to the true left of the Boyle again. Follow down the true left until an old stock track will take you up onto a forested terrace on you left. You will soon re-join the tramping track for 20 mins before reaching the Boyle Village on the Lewis Pass highway.
