

## **Side Trip to Cow Stream Hot Pools**

2 to 2.5 hours from the homestead (you will have crossed the Edwards river twice) turn sharp left at a “T” intersection in the track. Follow the track up a steep terrace and across about 300m of grassy flat to the hot pool. Lead your horse down to the river level to find a tie up place. There are 3 newly built rock pools of varying temperature 20m downstream from the older main pool. Sandflies are abundant in the evening, so not a great place to camp. You will be eaten!
